BLAUAIR RV

Premium range of floor mounted heat recovery units for commercial applications.

The unit is available in seven sizes with rated air flow 470–3530 CFM, with heaters and cooling coils.

FANS

Fans with EC motors. Impellers with backward-curved blades.

Low power consumption at any speed, low noise and stable operation in any climate.

CONTROLS

Integrated plug-and-play controls based on **Carel kVent controller**.

Easy connectivity via Web interface by Ethernet cable. **Modbus** and **Bacnet** protocols.

USER PANELS

S30 th-Tune: simple control panel ensures basic setting options with user-friendly interface.

S32 pGDc: extended control panel for full functionality engineering adjustment.

FRAMELESS CASING SYSTEM

Casing panels made of zinc-aluminum coated steel with a 1 5/8" mineral wool heat- and sound-insulating layer. Corrosion class C4 according to ISO 12944: class C4. Each model available in left or right versions.

HEAT EXCHANGER

High-efficient rotary heat exchanger is available in two types:

- Condensing (aluminum) type - standard;
- Enthalpy type for hot and humid areas - optional.

DAMPERS

Integrated automatic external dampers with **Belimo** drives. Included in units starting from 1500.

FILTERS

Panel MERV13 class filters on both supply and exhaust.
