

## DESCRIPTION

# HRV EC D 120

## HEAT RECOVERY VENTILATOR

HRV EC D 120 are the complete whole house ventilation system designed to bring a continuous supply of fresh air into the house while exhausting an equal amount of stale air.

Five year warranty.

## CASING

Steel casing is covered with high-quality multilayer aluminium and zinc alloy to prevent corrosion. The casing is equipped with a switch to turn the ventilator off when the service panel is opened.

## FILTER

Washable MERV 6 air filters in exhaust and supply air streams. Optional supply: anti grease aluminum filter.

## FANS

High efficient electronically commutated motors with external motor and impeller with forward curved blades. EC motors are featured with high performance and total speed controllable range. The electric motors and impellers are dynamically balanced.

## HEAT RECOVERY CORE

Aluminum cross-flow core (HRV EC D 120) ensures efficient heat recovery.

## DEFROST SYSTEM

To protect the Heat Recovery Core, an antifreeze electronic protection system is applied. It switches the supply fan off according to the temperature sensor settings. Warm extract air defrosts the HRV core then the supply fan switches on and the ventilator continues operating under rated conditions.

## CONTROL BOARD

Terminals to connect external control devices

Three-position mode switch

Fans speed and temperature sensor set up buttons

The unit incorporates an integrated control system with following functions:

- Operation mode switch.
- Airflow balancing enabled by supply and exhaust fan independent speed adjustment from 0 to 100% (percentage is displayed on built in screen).
- Automatic recovery core frost protection.
- External control device connection (up to 5 at the same time).

## SUITABLE FOR:

Bathroom / kitchen / apartments / cottages / small offices.
